The Rumble Sheet

May 2011

Volume 45

Issue 5

President's Message

Hi EVERYONE,

It sure has been a busy month. I want to thank everyone for the prayers and cards and flowers you sent me when I was in the hospital. Thank you very much. We are getting a little like these old cars we like so much, sometimes we need a little repairing also.

The trip to Stillwater was a lot of fun from all I have heard about it. I am sorry I couldn't make it. The Azalea Parade at Muskogee was a good trip. All those Model A's winding down the hill in Honor Heights Park was an awesome sight. All the different color cars make a spring bouquet in themselves.

Thanks to Marvin for making his shop available for a tech session. With his and Ralph's technical expertise, maybe we will avoid problems on the road. Having car trouble on the road is a helpless feeling. Small problems seem big. When you're home, big problems seem small. After this, we should be in good shape to go to the Regional Meet at Overland Park, Kansas on June 5-11, 2011.

We had our first brainstorming session April 21st to kick off our 2014 Regional Meet here. We got some good ideas. We are just in the beginning planning stage. We will meet again June 28th at Catoosa School Board Meeting Room at 6:30 pm. I encourage everyone who can make this meeting to be there. Making the Regional Meet a great success will require everyone's support.

In May, we will start off with breakfast at Duffy's Restaurant at 81st and Elm in Broken Arrow. Rooster Days Parade is May 14th. We line up on Main Street north of Broadway. We need to line up at 9:00am and the parade starts at 10:00am.

May the Ford be with you,
Don Reed, Model A President

May/June Event Updates

- May 7 - Breakfast in Broken Arrow at Duffy's, 706 S. Elm Place at 8 a.m. The Tech Session previously announced for this date was moved to April 30.
- May 14 - Rooster Parade in Broken Arrow. This year the board elected to return to the Rooster Parade participation instead of the Strawberry Festival Parade since we have done the Stillwater event for the past two years. The Rooster Parade line-up is 9 a.m. with parade at 10 a.m. See separate article for more details.
- May 17 - Monthly Meeting, Lewis and Clark at 7 p.m.
- June 4 - Breakfast/Sapulpa Car Show, Café USA, at 8 a.m. Afterwards, those interested will park downtown and attend the car show for a few hours.
- June 5 – 10 - Regional Meeting, Kansas City/Overland Park, KS
- If you plan to attend, please make your hotel reservations soon and go to the Plain O' A's website to register. We have members planning to caravan from Tulsa driving their Model A's. Call Roy Cail, Ralph Hudson or Don Reed for more details. Currently, we have about 12 members registered to attend.
- June 9 – 12 - Leake Auction. If the club is invited to participate/work, a special email will be sent out to request volunteers. The auction is scheduled to be held at same time some of our members will be at regional. We appreciate anyone who will offer to work. Don Wise is our club's coordinator for this event.
- June 16 - 19 - Texas Tour, Conroe TX. If you are considering attending, contact Marvin Mellage for additional information.
- June 21 - Monthly Meeting, Lewis and Clark at 7 p.m.
- June 28 - Regional 2014 Brainstorming Meeting #2 will be held on Tuesday, June 28, at the board meeting room, Catoosa Schools Administration Bldg, beginning at 6:30 p.m. We had 19 people attending our first session and welcome those and all members to join in this second session where vital committees and chair will be discussed.
- July 2 - Breakfast TBA at 8 a.m.
- July 3 - 4th on the 3rd Patriotic Concert. We anticipate that this concert will be held again this year. In past years it has been held at the PAC center on the TCC campus at 81st and HWY 169. Last year we had about a dozen members and guests attend. Those attending expressed a great appreciation for the event and felt it should be on our calendar again this year. What a great Patriotic evening of music it was! Definite plans will be announced once the event is confirmed

Nuts and Bolts (or Miscellaneous Tidbits)

by Ken Brust

Those of us who made the Stillwater Tour certainly enjoyed an interesting and fun trip. The eagle reserve was most amazing! But poor Marvin. He had his brand new air conditioner all ready to go and was hoping for some really hot weather so he could show off but things just didn't pan out for him. A loose connection prevented the new air conditioner from working properly and the weather never really got very warm although it was plenty windy driving home on Sunday. Marvin did get his air conditioner working again in time for the Azalea Festival Parade the following weekend so was a hero once again to Linda!

Many of us noticed Chuck and Lisa Ramsey had officially named their Model A after they had installed a very sharp looking decal on their rear window announcing the name of Lisa Marie. Tory, Linda and I liked the name-in-the-back-window decal idea so much we ordered one for our car which now officially designates our Model A as "Ruthie". Check out the name decals next time you see these two cars and see what you think. The price is right at \$8 including shipping.

Stud Muffin was a big hit again when we were in Stillwater when the Oklahoma City Club presented him with a special shirt created just for him. Way to go, Jerry! Speaking of Jerry Conrad, did you all catch the April issue of Oklahoma Magazine on page 22?? There is a full page article and picture of our own Stud Muffin and his restored 1968 Pontiac. He is even wearing his Tulsa Model A Ford Club sweatshirt!! Jerry is quite the celebrity around town! Jerry also presented a very interesting video on Tulsa for our program for April. The video is almost an hour long so we only watched the first half with the remaining half to be shown at our May meeting. Thanks, Jerry.

There are some interesting little outings planned for the months ahead following our breakfast gatherings on the first Saturday of each month. Since many enjoy driving their Model A's to breakfast when the weather is nice, we thought we should plan a poker run or little tour around town to see some local

sights after we finish breakfast. We might plan to do a poker run in July. After breakfast in August we plan to visit a private car collection along with an antique airplane collection in Broken Arrow. Plans are in the works now to visit the Model T Garage which is also in Broken Arrow after the September breakfast. In October we repeat the Food for Hunger Drive as we did last year. Then in November following breakfast, we plan to visit a private car collection in midtown that is truly amazing. A friend of ours has several cars including one of the rarest Model A Fords in existence along with a couple of Model T's, some Packards and some other interesting cars which I know you will all enjoy. So, drive over to the Tech Session which Ralph and Marvin are hosting soon and get your Model A ready to do some fun driving!

Until We Meet Again, Happy Trails to You!!

FALL TOUR PLANNING BEGINS

Don Wise is the chairman of the Fall Tour Planning Committee for 2011. The committee is composed of Pat Wise, Marvin and Linda Mellige and Ken and Tory Brust. The three couples held their first of many planning meetings recently to select a destination for this year's tour scheduled for the weekend of October 21-23, 2011. The committee considered both Eureka Springs and Branson before finalizing the selection of the Miami/Grove area. The group thought a shorter drive to our destination area would allow more time for interesting stops along the way.

Maybe by keeping our money in Oklahoma, we can even help improve the state economy a little. This year's Fall Tour is planned as a three-day and two-night trip. The Tour will travel old Route 66, either going or coming, with various stops planned around the Grand Lake and Miami areas. Some possible places for consideration include, but are not limited to, the Coleman Theater, Dale Starbird Custom Car Museum, Harber Village and the Afton Car Museum. The Committee hopes everyone can reserve this weekend in October to come join in the fun. Watch for more details to follow.

MEMORIES OF TOMMY & TINKERBELL (JS)

The wind was blowing hard! Suddenly, I heard "Oklahoma! Where the wind comes sweeping down the plains". It was my roommate's owner singing!

My roommate, Tommy, who was born in 1931 said, "Tinkerbell! Can you remember the winds in the thirties?" I said, "I am only one year older than you. I remember but would like to forget. The dust was blowing so bad we could not see with our head lights on during the day. There was so much dirt in my carburetor I could not breathe. My owner at times had to dig me out of the dirt just to try to go somewhere." Tommy said, "Where could he go? The dust was not only in Oklahoma! But Texas, Colorado and Kansas.

Your owner would not be singing about the wind if he was with us when we were born. At least today our owners can see where they are going without lights on. They don't have to clean dirt out of our carburetor to start us. They don't have to dig us out of a mound of dirt to go somewhere! They have really got it made! In our old age we will have to admit we are better off than in our younger days. We don't have to travel on dirt roads, cross rivers without

a bridge or use retreaded tires. We don't have to drink drip gas or eat bulk oil. Even though I was one of Henry's Lady's we had it just as rough as Henry's gentleman like you. I am glad our owners seem to enjoy having us around even when we get a little grumpy."

TECHNICAL TIPS AND DISCUSSION

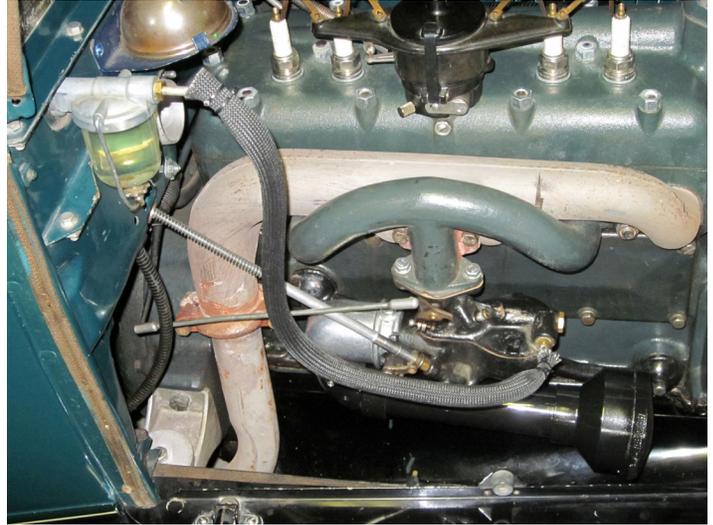

by Roy Cail

Summer is on its way which brings the unwanted “ Vapor Lock” issues. You may recall in the November 2010 Rumble Sheet we introduced the Fuel Line Insulation Kit for Carbureted Fuel Systems (enough product to do 2 vehicles) by JC Whitney SKU Number: 1JA 377543 Manufacturer Number: FJN0.00BK Price \$18.99 (kit) plus shipping. Ken Depe in the OKC Club had used this specific product to assist in reducing vapor lock with good results. A few of us in Tulsa followed his advice and installed the insulation kit as well.

In this article we will add two more things you may wish to consider in reducing/eliminating vapor locking. First, is switching from a metal sediment bowl to a glass sediment bowl to reduce heat transfer/buildup on the gas supply system. As you know these are readily available at various parts suppliers.

Second, is the introduction of a new air breather design. Many of us use an air maze or air filter on our carburetors. These products draw air from one of the hottest places in the engine compartment that being near the manifold/muffler area which in turn is used for combustion. The OKC Club has introduced another new item to combat vapor lock as well as they think improves the performance of the carburetor. This is a new breather design that draws air from the front area of the engine compartment. As you can see in the picture the breather is connected to the throat of the carburetor with a 90 degree bend back under the carburetor toward the front of the motor. This allows cooler air to be used for combustion. This product can be made from all PVC pipe or in my case I used the connection piece from the air maze to the carburetor then used PVC for the balance of the construction. All PVC pieces are 1 1/2” ID with the air scoop being a 1 1/2” to a 3” coupler. The scoop is covered with black aluminum screen and is secured with a hose clamp. I drilled a 1/8” hole on the bottom of the pipe where it joins the 90 degree connection to allow any gas that may accumulate there to escape. Lightly scuff the surface of the PVC product and paint with high temp engine paint (as you can see from picture I used black).

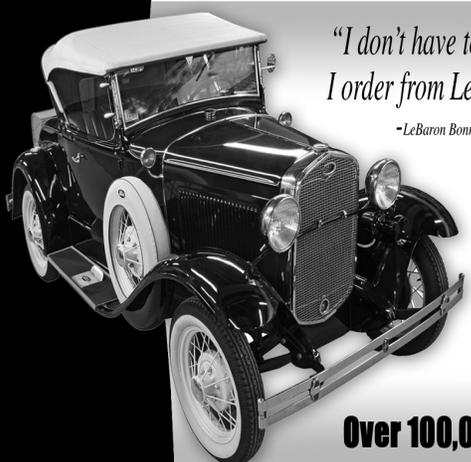

This is three things we can do to take corrective action on reducing and we hope eliminating vapor locking. If you have any questions or suggestions please let me know.

2014 MIDWEST REGIONAL MEETING

PRE-PLANNING MEETING by Roy Cail

The first planning meeting for Tulsa hosting the 2014 Midwest Regional Meet was held on April 21 at Hardesty Regional Library with 19 in attendance and was facilitated by Roy Cail. The purpose of the meeting was to brainstorm the approach for conducting the Regional Meet as well as make some of the early general decisions that will be key to its success. The detail decisions for the Meet will be made by the respective committees.

Thanks to Tory Brust and Marvin Mellage we captured the key components of the discussion and decisions which

will be publishing this in the Rumble Sheet following our next meeting scheduled for June 28, Catoosa School Admin building, Board Room at 6:30PM. We encourage any member that is interested in the 2014 Regional Meet to attend this meeting where we will finalizing the "brainstorming" portion of the planning process.

We will be looking for many volunteers (including Chair of the event and a number of Committee Leaders) to assist in hosting this fun event. We would encourage each of you to consider what role you would enjoy doing to make this Meet a success.

If you have any questions please feel free to ask any of the Board Members.

About the Tulsa Model A Ford Club

Chapter #8231 of the Model A Club of America (MAFCA)

This is the official publication of the Tulsa Chapter of Model A Ford Club of America. This monthly newsletter is mailed to members, prospective members, advertisers and editors of similar publications. It's purpose is to keep you informed of what has taken place, scheduled activities and to promote fellowship among club members.

Members are encouraged to submit articles containing technical or any club related information. Articles must reach the editor by the 5th of the month to insure publication in that month's newsletter. Articles received after that will appear in a following newsletter.

Membership dues for the Tulsa Model A Ford Club are \$20 per family annually payable at the end of the year. Contact the New Member chairperson for new memberships and the Treasurer for renewals. The Tulsa Model A Ford Club recommends membership in the national MAFCA organization.

Members may advertise at no cost, non-business ads in the newsletter For Sale, Wanted or Trade section. Businesses may advertise with cost by the ad size, (business card size or 1/4 page) in the advertising section. The number of ads are restricted to space available in the Rumble Sheet. Contact the Advertising chairperson for details.

Meeting Schedule

- Business Meeting - 7:00 p.m. 3rd Tuesday of each month at Lewis & Clark Middle School, 737 South Garnett, Tulsa
- Breakfast - 8:00 a.m., 1st Saturday of each month, location to be announced
- Board Meeting - 6:30 p.m., 1st Tuesday of each month, Martin Library, 2601 South Garnett Road, Tulsa

TO SUBMIT AN ARTICLE, LETTER, OR FOR SALE OR TRADE, EMAIL:
